

Get the word on
what's going on at St
Peter's—get the....

Welcome to the first edition of Buzz. Every term we aim to bring you an exciting mix of school news, games, interesting articles and plenty of fun stuff!

SOMETHING FOR EVERYONE!

AFTER SCHOOL CLUBS

We have many clubs, including drama, science, dance, maths, choir..... The list goes on and on!

Look out for the new clubs slip for the next half term and get it back early to get the club of your choice.

There's also plenty going on at lunch time like Mrs Jones's Time Out Club and activities in the playground.

If you don't see anything that interests you, mention it to your teacher or School Parliament Member.

NEW IDEAS ARE ALWAYS WELCOME!

VERY IMPORTANT PEOPLE.

Wondering how to get to be a VIP for the day in any class?

- Work your hardest in all lessons.
- Do a lot of reading.
- Impress your teachers with our VALUES!
- Do all your homework and just as importantly—have it in school on Thursday!
- Be a good friend and role model to all.

ANIMAL OF THE WEEK—SNOW LEOPARD

The snow leopard or Ounce is a large native cat in the mountain ranges of Central and South Asia. It is on the list of threatened species because the global population is estimated to be less than 4,500 to 8,745 mature individuals. Snow leopards live in alpine and subalpine zones (around 3,000 to 4,500m).

AUTHOR OF THE TERM—TERRY DEARY

The man who keeps making history!

He doesn't just make history—he makes sure it's HORRIBLE HISTORY!!

For 25 years he's been writing books full of interesting facts and stories with his own repulsing twist

—plenty of gore and blood. 🤢👀

He also has a series of Horrible Science books. You'll find them in the Reading Library. (And by the way—he once said “They should close all schools and sack all the teachers”).

Do you have any news, facts, interesting articles or fancy interviewing somebody and you would like to add to Buzz?

Please drop it in the **BUZZ BOX** in Reception and it will be added to the next edition.

Q—Why did the banana go to the Doctors?

A—He wasn't peeling very well!

SCHOOL PARLIAMENT NEWS

10. ANIMAL NEWS

The School Parliament have been busy working on the effect of litter on the environment.

They have educated the school in an assembly on what litter is doing to our world. They have written to a number of companies asking for donations of recycling bins, litter pickers and composting containers. They can paint the bins up and place them around the school.

Their next project is learning how to debate!

Fancy a go???

SCIENTISTS have discovered plastic particles in almost three out of four fish living in the deepest parts of the sea.

Alina Wieczorek from the National University of Ireland in Galway and her team sampled more than 230 fish from one of the most remote parts of the northwest Atlantic. They found that 73% of the fish had plastic particles in their bellies.

These deep-water fish travel to the surface of the ocean at night to feed on plankton, so this is when they are most likely to be exposed to microplastics (tiny bits of plastic).

**Want to be a roving reporter?
Ask a Buzz team member.**

ROVING REPORTER

Our roving reporter this issue is Mrs Rose.

She interviewed Gaby in Year 5 about the Easter Music Evening on 12 March.

"I played the recorder. I played in a group then did a solo. I was a little nervous but it went well.

The audience enjoyed all the performances, there was a lot of clapping. We all laughed when the choir kept singing after the music stopped! I was surprised at how good the guitar players were—I kind of wish I'd done guitar lessons now!

Thank you Miss Durley for arranging it all".

COMPETITION TIME:

What is the third planet from the Sun?

Write your answer on a bit of paper with your name and class and drop it in the box in Reception—first correct answer out of the box WINS!

Closing date—11 May.

The Buzz Team are Gaby, Ellie, Kian, Barney, Lily, Bryony all from Year 5 and contributed to this Issue No 1.
